Re: Hurricane Irma PW37285 – Tuckahoe Mansion Seawall

To whom it may concern:

Please accept this letter as Martin County's request for a 6-month time extension for the Tuckahoe Mansion Seawall project (PW37285), which as of the date of this letter remains unobligated.

Repair of this damaged seawall will require significant improvements to multiple elements along this shoreline, including the embankment, vegetation, the boardwalk and the protection of the existing 1920 era seawall. The project cost is currently estimated to be in excess of \$1,000,000. The necessary repairs and mitigation elements proposed to increase the resiliency of this historical facility, have already required extensive land surveying, engineering design and construction plan and detail preparation. Although we have begun initial permitting, the contractor selection process (both advertising and bidding) is on hold until permit acceptance. Therefore, the construction commencement will be delayed well beyond the March 10, 2019 deadline.

Please contact us, should you require anything further. Thank you for your consideration of this request.

Sincerely,

Don G. Donaldson, P.E.
Deputy County Administrator
